

- A network of 26 project partners from DE, UK, BE, NL, SE, and DK
- Beneficiaries: local and regional authorities
- Project Duration: Sep. 2009 – Aug. 2012
- Objectives:
 - raise the use of Sustainable Energy Planning
 - innovational processes for Regional Development
 - capacity building
 - identify new cooperation models on various North Sea Region levels
 - new methods, roadmaps and tools for Sustainable Energy Planning

Focus on the specific problems municipalities and counties face in the field of **renewable energy and energy efficiency**.

Consideration of the main points of relevant **strategic EU policies** (such as the ESDP, RES directive and the Strategies of Gothenburg and Lisbon).
